

AW22

PING® | ping®

TO ALL COMMITTED GOLFERS. The ones out first every morning. The ones who won't stop at average. The ones who don't accept ordinary. The ones who don't settle for standard. **THIS IS FOR YOU.**

Driven by the latest innovations, fabric technologies and manufacturing techniques, our collection provides extreme comfort with no distraction during play, keeping you on top of your game all year round.

engineered to play®

sensorcool® sensorwarm® sensordry®

Performance golf apparel, we never stop thinking about it. Each garment in the Autumn/Winter 2022 range is specifically engineered to perform on the course, even in the toughest conditions, thanks to our innovative Sensor technology platform that has you covered, whatever the weather.

AW22

“Graphene conducts heat better than any material on Earth.”

This season, we've continued to explore modern technologies and become one of the first to use the innovative material, Graphene, in a golf apparel collection.

Isolated in 2004 by two researchers at The University of Manchester, Andre and Kostya won the Nobel Prize in Physics for their pioneering work.

How can Graphene offer protection and comfort to golf clothing? Graphene helps absorb and retain warmth, regulating the body temperature and aids comfort during physical activity.

Our SensorDry 2.5 Graphene suit and Elemental Polo incorporate a Graphene print to the inside of the fabric, creating superior performance and protection, particularly when worn next-to-skin.

“A single atom thick, Graphene is the lightest, strongest, most conductive material ever discovered.”

“Helps conduct and retain more body heat”

GRAPHENE

SENSOR DRY 2.5 GRAPHENE SUIT ENGINEERED WITH GRAPHENE

“Ultimate waterproof protection, ultra lightweight, flexible stretch, windproof and breathable - now with the addition of thermal conductive properties.”

NORSE S4 SERIES

WARMTH WHEN YOU NEED IT

Introducing the all new Norse S4 Series, a range of PrimaLoft® insulated outerwear styles, designed to provide unrivalled performance and comfort, whatever the weather.

NORSE S4 JACKET

ENGINEERED WITH PRIMALOFT® THERMOPLUME™

Made up of feather-like plumes of synthetic fibers designed to mimic the lightweight warmth, loft, softness and compressibility of down.

NORSE S4 ZONED JACKET

ENGINEERED WITH PRIMALOFT® GOLD INSULATION WITH CROSS CORE™

Fused best-in-class insulation fibers with aerogel technology to reach levels of lightweight warmth previously achieved only by down.

NORSE S4 VEST

ENGINEERED WITH PRIMALOFT® GOLD INSULATION WITH CROSS CORE™

Originally developed by NASA for use in aerospace applications, aerogel is composed of more than 95% air and is the lightest solid material known to man.

“PrimaLoft have established itself as the world leader in providing comfort solutions with high performance insulation, fabrics and yarns through an unwavering commitment to pushing the boundaries of material science.”

ENRICHED OCEAN

THE COOL TONES OF DEEP ATLANTIC AND SCUBA BLUE CREATE A WEARABLE TECHNICAL PALETTE, PERFECT ACROSS ALL PRODUCT CATEGORIES. THE COMPLIMENTARY SHADES OF MINT AND POPS OF GREEN LAKE CREATE FRESH COMBINATIONS, OFFERING A FEELING OF OPTIMISM FOR A NEW SEASON.

INVIGORATE

BLUES REMAIN A CORE FOCUS WITH TONES THAT STIMULATE AND ENERGISE. NORTH SEA BECOMES A KEY COLOUR WITHIN THE UPDATED SENSORDRY RANGE. ON ITS OWN, FRENCH BLUE CREATES A STRONG COLOUR POP AGAINST NAVY & NEUTRALS, BUT ALSO WORKS AS A TONAL SHADE IN JACQUARDS AND STRIPES. FLAME ALSO ADDS A POP OF RETRO SPORTSWEAR AND WHEN USED WITH BLUES, CREATES AN INVIGORATING ON-COURSE PALETTE.

MINIMAL MONOCHROME

CONTAINING CORE HERITAGE COLOURS, THIS PALETTE ADDS CONTEMPORARY SHADES FOR A FRESH UPDATE. AN ESTABLISHED COLOUR FOR FUNCTIONAL OUTERWEAR, GOLD CAN ALSO WORK AS A SEASONAL SHADE WHEN COMBINED WITH BLACK AND STORMCLOUD. QUARRY OFFERS FRESHNESS IN THE INSULATED NORSE SERIES, MID-LAYERS AND POLO SHIRTS. BLACK AND WHITE ALSO FEATURE TO CREATE A STRONG MONOCHROME STATEMENT.

INSPIRED
BY
NATURE

DRIVEN BY DESIRE

ULTIMATE PERFORMANCE

Engineered to play, each garment in our women's collection is designed to respond to the demands of the game, keeping you in your comfort zone, whatever the weather.

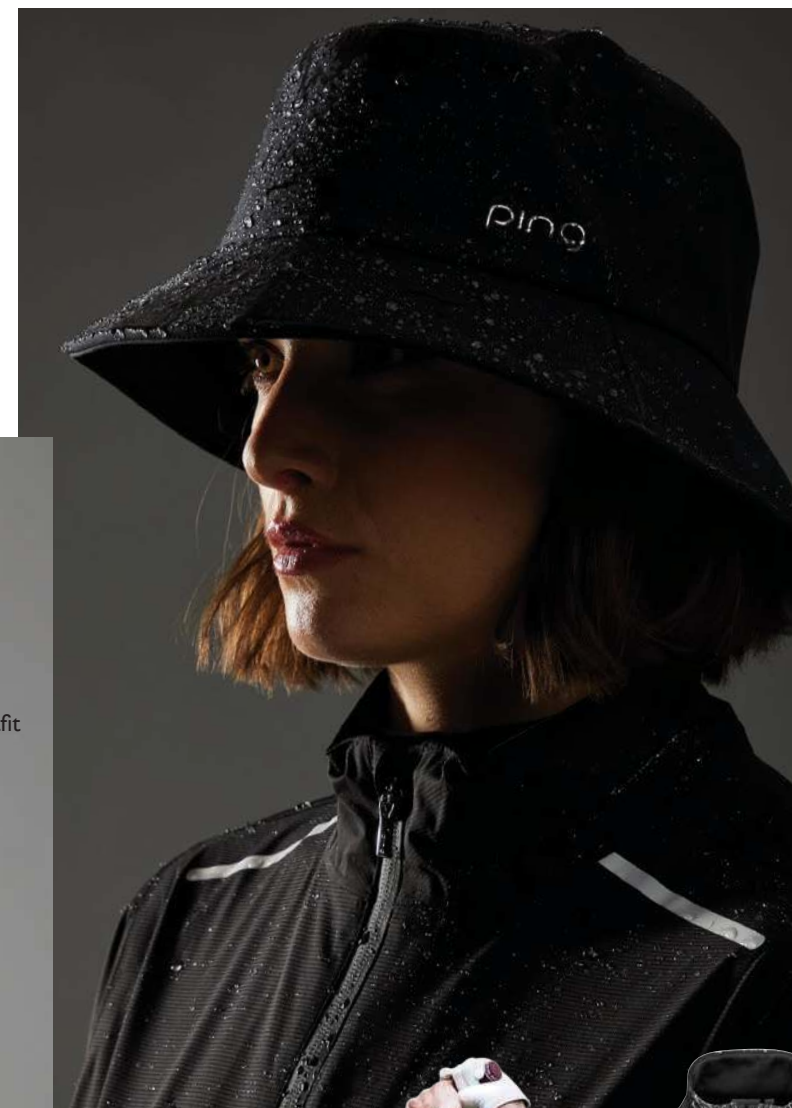

DESIGN INSPIRATION

This AW22 collection puts an emphasis on scaled-up patterns and intersecting contrast colours, with a bold and vibrant colour palette, giving a punch of colour to women's apparel.

IT'S ALL IN THE DETAIL

Taking inspiration from nature, the mineral print collection optimises elegant, sophisticated looks for both on and off-course styles.

VERSATILE LAYERS

With more choice and colour coordinating headwear and accessories, the reversible Cece vest provides a foundation to create key head-to-toe outfit combinations for any style.

ENGINEERED TO PLAY

MINERAL PRINT

TAKING INSPIRATION FROM NATURE, SMALL SCALE GEOLOGICAL TEXTURES, MARBLING AND MINERAL MARKINGS ARE SIGNIFICANT FOR AW22. THIS MONOCHROME PRINT OFFERS VERSATILITY AND LONGEVITY. THE MINERAL PRINT COLLECTION CAN BE PAIRED SIMPLY WITH BLACK AND WHITE FOR AN ELEGANT, SOPHISTICATED LOOK, OR ADD COLOUR HIGHLIGHTS BY LAYERING THIS PRINT WITH STYLES IN OUR SEASONAL FASHION SHADES OF FLAME, MELON, SCUBA BLUE OR AQUATIC.

ABSTRACT CAMO

TAKING INSPIRATION FROM THE GREAT OUTDOORS AND WINTER GOLF LANDSCAPE, PRINTS ARE RUGGED AND IRREGULAR TO MIMIC NATURE'S PATTERNS AND TEXTURES. THE EMPHASIS IS ON SCALED-UP PATTERNS AND INTERJECTING CONTRAST COLOURS. THE ABSTRACT CAMO PRINT IS BOLD AND VIBRANT OFFERING STRONG AND PUNCHY COLOUR. FLAME AND MELON WORK BEAUTIFULLY TOGETHER OFFERING WARMTH AND SOFTNESS, WHILE SCUBA BLUE AND AQUATIC PROVIDE A COOLER HARMONIOUS PAIRING. COMBINE ALL SHADES TOGETHER AND OFF-SET WITH NAVY FOR A DRAMATIC TECHNICAL EDGE.

SENSOR TECHNOLOGY

The Sensor platform from PING is an innovative performance fabric technology system designed to ensure that every garment worn is specifically engineered to respond to the body's requirements and demands of the game, maximising playability whatever the conditions.

sensorcool®

MOISTURE MOVEMENT
QUICK DRY
CREASE RESISTANT
STRETCH

Worn next-to-skin, moisture-moving technology draws perspiration away from the body keeping you dry for complete comfort in play. Crease Resistant for a tailored look with low maintenance. Stretch fabrics cut and engineered to move with your game.

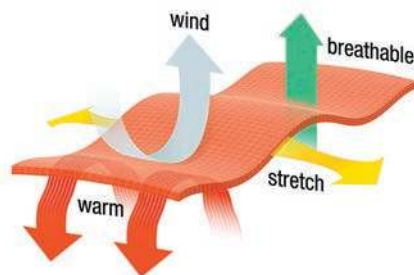

SENSORCOOL technology can be found in PING next-to-skin products.

sensorwarm®

WIND RESISTANT
WATER RESISTANT
THERMAL
STRETCH

Thermal layer to trap warm air and resist wind-chill, keeping you warm with minimal weight. Breathable fabrics ensure warmth with complete comfort. Stretch fabrics cut and engineered to move with your game.

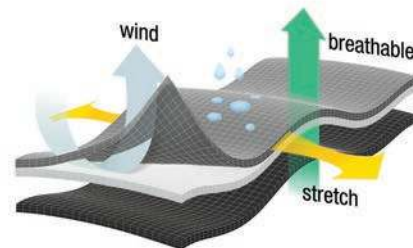

SENSORWARM technology can be found in PING mid layers and certain outerwear.

sensordry®

WATERPROOF
BREATHABLE
WINDPROOF
FULLY SEAM SEALED
STRETCH

Ultimate waterproof and windproof protection from all the elements. Air permeable ensuring true breathability. Cut in lightweight and noiseless fabrics for no distraction in play. Stretch fabrics cut and engineered to move with your game.

SENSORDRY technology can always be found in PING waterproof outerwear.

COOLMAX®

COOLMAX® ALL SEASON fabric contains fibres with a channelled surface to move moisture away from the body when the wearer is hot, while fibres with a hollow core provide insulation for added comfort on colder days.

sensorcool® COTTON

ENGINEERED WITH
COOLMAX®

SensorCool® cotton fibres are blended with technologically advanced COOLMAX® fabric to deliver exceptional softness and comfort. COOLMAX® fibres move moisture away from the body, keeping the skin temperature low and enabling the wearer to feel cooler and more comfortable.

PRIMALOFT®

PrimaLoft® Black Insulation ThermoPlume®

PrimaLoft® Black Insulation ThermoPlume® is comprised of small, silky plumes of fiber that mimic the lightweight warmth and softness of natural down. A special blend of PrimaLoft® proprietary fibers delivers the performance features you need – insulating loft, wet weather protection and compressibility – in an all-synthetic package.

PrimaLoft® Gold Insulation with Cross Core™

PrimaLoft® Gold Insulation with Cross Core™ technology is a revolutionary fusion of PrimaLoft® insulation, with silica aerogel that results in previously unattainable levels of warmth and comfort protection, never achieved before with a synthetic insulation.

PrimaLoft® Silver Insulation Active

PrimaLoft® Silver Insulation Active is designed to regulate your comfort level during the round, while offering performance without compromise. Millions of air pockets trap body heat for comfort in cold conditions and a permanent water-resistant technology provides warmth, even when wet.

THERMOLITE®

THERMOLITE® ALL SEASON technology is engineered to keep the wearer warm and dry. Hollow fibres transport moisture away from the body to keep the wearer cool and dry on hot days, while providing insulation on colder days, helping to optimise performance.

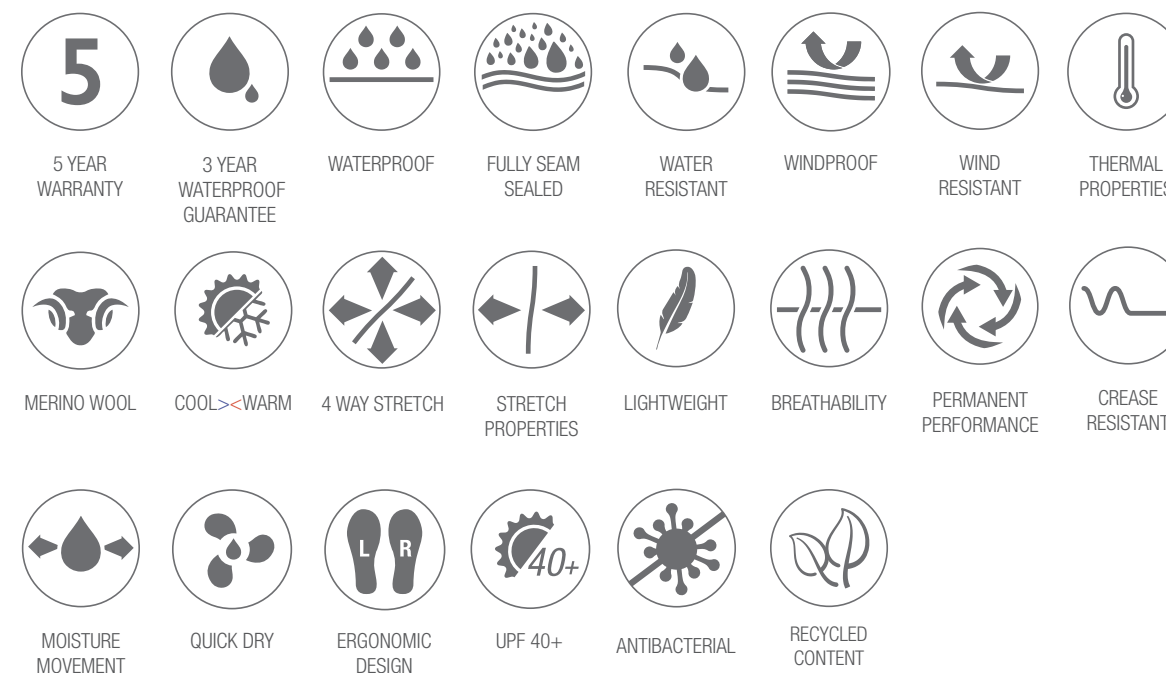

MERINO WOOL

This luxurious, machine washable, natural active fibre reacts to changes in body temperature, keeping the wearer warm in cool conditions, while moisture movement allows the body to breath in warmer conditions. Naturally odour resistant with stretch and crease resistant properties.

TEKFIT® by Talon®

Tekfit® waistband technology is designed for enhanced comfort. This cutting-edge innovation provides up to 2" of additional waistband stretch, for a more comfortable and flexible fit that enables a greater range of movement and an increased freedom of motion.
